

# In Your Memory (Single Version)

## Depeche Mode

Put up the barriers, shut down your senses  
Cover up with all of your pretenses  
See no evil, your eyes are blunted  
We are the hunters, we are the hunted Place it in your memory  
Leave it in your past  
But don't forget Takin' a tumble, I'm takin' a dive  
Sometimes I stumble when my mind's made up  
Reaction levels seem strangely muted  
Ordinary acts of fun have been diluted Place it in your memory  
Leave it in your past  
But don't forget
