matinee

Chicosci

Everyones dressed
All in their Sunday best
The shadows bathed in pink and black
Moonlight sets in, the conductor takes center stage
And the people start to sway (start to sway)
And the band plays on
Were gonna dance the sun away
Tonight, were gonna dance the sun away
Theyre spinning around and around again
They turn and hold hands
With their hands they send
The music plays, the ghosts fly over the stage
And they awake and dance with everyone
A masquerade in full swing, into the night
The right they all sing
Save us
And now the light is gone
So close our eyes
And lets begin
Were gonna dance the sun away
Tonight, were gonna dance the sun away
Theyre spinning around and around again
They turn and hold hands
With their hands they send
Theyll all dance in this holiday
In a moonlight ballroom
Let the symphony fly
An invitation to sing one more time
Were gonna dance the sun away
Tonight, were gonna dance the sun away
Theyre spinning around and around again
They turn and hold hands
With their hands they send
