

# The Thing About Love

[Alicia Keys](#)

Love, love will come find you  
Just to remind you of who you are  
Love, it will forsake you  
Threaten to break you, take what you got  
Everybody laughs, everybody cries  
Sure it can hurt you, baby  
But give it a little try  
See that's the thing about love  
Friends, sometimes will blind you  
Sneak up behind you, you can't give enough  
Then life, it will embrace you  
Totally amaze you, so you don't give up  
Everybody laughs, everybody cries  
Sure it can hurt you, baby  
But give it a little try  
See that's the thing about love  
Oh, tell me that I'm not the only one  
That's going through it all  
Oh, sometimes I feel like I'm the only one  
That's going through it all  
But it's time, oh it's time  
For me to shine, hey  
It's about time, oh it's time  
For me to shine  
It's my time, said it's my time  
For me to shine  
Said it's about time, it's about time  
For me to shine  
Everybody laughs, everybody cries  
Sure it can hurt you baby  
But give it a little try  
That's the thing about love  
That's the thing about love  
That's the thing about  
That's the thing about love
