I Don't Mind The Pain

Danzig

Remember to call my name
I adore it
If you speak my name
I implore itIf with all these things
We invoke here
Call you out our name
But before warned dearI don't mind the pain
I don't mind the painWe hear you call our name
We adore it
Hear you all these things
That we invoke hereIf you call our name
Rest assured dear
See you all these things
But before warned dearI don't mind the pain
I don't mind the painAnd I stay so arcane
In the shadows of your brain
Will I come to you again?
Remember that I don't mind the painHear you call our name
Can you afford it?
Racked with all these things
And beyond hope dearRemember to call our name
And we assure you
Trip with all these things
That we invoke hereI don't mind the pain
I don't mind the painAnd I stay so arcane
In the shadows of your brain
Will I come to you again?
Remember that I don't mind the painCome to my heart
Come to my heart
Come to my heart
Come to my
