

Dry Land

[Tara MacLean](#)

Looks like somethings coming
Looks like theres gonna be a storm
Looks like everyones running
Looks like everyones torn
Hands to blades
As day light fades
All this shaking has
Swimming from dry land
Looks like everyones broken
Looks like everyones lost
Look at all the money were making
We dont even see what its cost
Hands to guns
As night time comes
All this shaking has
Swimming from dry land
Looks like war in the valley
Looks like war in the sky
And looks like war on the playground
First thing you learn is to lie
Hands to skies
For morning's rise
Why cant we start again?
Swimming from dry land
Swimming from dry land
Swimming from dry land
