Danger

U.D.O.

Fearing the day - hiding the light
My mind is shocked with fever
Evil will play - night after night
They are the soul receivers

Yeah, they are strangers in the night
Yeah, they're endangering your life
Drinking your tears - embracing your fears

[Chorus:]
Danger - the lair is hard to find
Danger - so keep that in your mind
Ripping me up - tearing me down
My soul is crying "action!"
Terror is king but I got the crown
I'll start a chain reaction

[Bridge]
Danger - a madness in the air
Danger - dimensions everywhere

Whispering names on lonely roads
With eyes camouflaged in shadows
They stalk the earth in silent packs
No time to die tomorrow

[Chorus]
