

Bad Funk Stripe

Grinspoon

I'm a small portion of the sampled origin
Seems like your kickin' it back to the policemen
I need a breath of fresh air, so we can clear the air
Importance for your labels Kick the flipper on the gold mark twilight
Kick the flipper so I can see my light
I screamed hooray for flashing bad funk stripe
Screamed hooray for flashing bad funk stripe Bad funk stripe Bad vibes from the slide tribe seems
You got your wires crossed when you tried to fix the toasted
But the boasting felt like karate
Rolled with the punches and a blow up Versace We really need gravel rash
Step on the gas, give all the hash
Rollin up, pretty smashed
Step on the gas, we all need gravel I screamed hooray for I'm flashing back funk stripe
Bad funk stripe Well, there's a crazy situation on the seventh floor
I'm in an argument forever with the lady in the down stairs Left operator lift me up better, I know you do it well
'Cos I've seen you when your in the rain
And your pain won't go back
'Cos I know it You try everything to tell me that you know it
You know, I know, you know
A bad funk stripe
