New Dead Nation

Deathstars

Did you feel how the bullet took you?

Did you feel easily your life got shed?

Did you feel how the system shot you?

9mm through your fucking headI love it and I hate it and I take it and feed it

I slay it, I fuck it, I suck it, I leave itThe new dead nation

There's no illusions to chase

And each fucking time

I get that shot in my face

The new dead nationSo you felt how the bullet got you?

And you felt how you vivid dreams fell dead?

And you felt how the system hit you?

Fill your heart with fucking leadI love it and I hate it and I take it and feed it

I slay it, I fuck it, I suck it, I leave itThe new dead nation

There's no illusions to chase

And each fucking time I get that shot in my face

The new dead nationI have the soul of a hologram

I have the toungue of a slave

We are the preachers of today

Nothing true preach anyway

For this life and for these lies

So suffer the extremities

Well, I'll kill it for the lies

And death diesSelf-destruction at hand - a way to live and shape your life
But the further it goes the more and more we stretch for the knifeThe new dead nation
There's no illusion to chase

And each fucking time I get that shot in my face

The dead nation
