

# Swear By Me

**Tanita Tikaram**

Amazing, you don't have much to say  
Amazing, you don't have much to say  
I know your kind all too well  
The weather will storm, will you swear by me?  
Would you swear by me? Innocence that changes nothing  
I'm sure that changes something aside  
Would you go, tell it wrong?  
Not swear by me, not swear by me I'm huddling for the summer inside  
The chase brings blues  
The habit that grows inside  
How bad, it just grows and grows right back to you I'm missing, so what do you say?  
Amazing that somebody will say  
I guess I've seen some very strange faces  
Well, we all wind up in the oddest of places
