New Found Power

Damageplan

Why have we waited so long?
Suppressing the power inside
Tear away all that was wrong
Something too massive to hideIt's time to rip the chain from your neck
Let go the past as you purge
Free now from everything weighing you down
Open the floodgates and surgeWith new found power
New found power
New found power
New found powerCleansing yourself of the past
Learn from mistakes and move on
Conquering new ground at last
Unite and become twice as strongIt's time to rip the chain from your neck
Let go the past as you purge
Free now from everything weighing you down
Open the floodgates and surgeWith new found power
New found power
New found power
New found powerNothing ventured, nothing gained
Hope was all that kept me sane
Rise above and prove myself
I'll survive without your help
Shut you out my strength comes from withinNew found power
New found power
New found power
New found powerNew found power
New found power
New found power
New found powerPower
Power
