New Fire

Sent By Ravens

Our families are weird machines
There's too many parts to tape back together before you turn 18
You shake because your not ready
But fear comes back for more
Be a light in their darkness, be a glow on the shore.
He'll turn it around

Chorus: A new fire lit in you
A new fire circles this room
And may you never be afraid of your faith in
A new fire lit in you
A new fire circles this room
And may you never be afraid of your father.

Families are a precious thing
There's too many hearts to break all at once before you turn 23
You scream because you weren't honest
You left cause you were wrong
I pray for grace in your decisions and hope you wont be gone too long
He'll turn it around
Come back to us god
I swear he'll turn it around

Chorus

Take, take that knife from your neck
Take that knife from your neck

Chorus
