

# The Woods

## Drenge

Take a walk through the woods  
I've got a rasping in my chest  
My memory's kind of blurry like a VHS  
If we fought last night  
I can't remember anything you said  
Just the sound of your voice  
And a ringing in my head  
And lead us not into temptation  
But deliver us from evil  
This is the font and this is the aisle  
And this is the casket and this is the steeple  
Burn my body by the banks of the Derwent  
And it won't mean anything at all  
Nothing's sacred, nothing's special to you  
Take me dancing  
Or drive me round the block  
Play me scratched CDs that never work  
I remember you lighting up  
And I remember you acting tough  
I can't remember anything you said  
To her, to him, to me  
I watched you kissing on the beach  
And when the waves came rolling in  
I couldn't help but scream
