

Around the Sun

8mm

I want the sun to shine on me
I want the truth to set me free
I wish the followers would lead
With a voice so strong it could knock me to my knees
Hold on world 'cause you don't know what's coming
Hold on world 'cause I'm not jumping off
Hold onto this boy a little longer
Take another trip around the sun
If I jumped into the ocean to believe
If I climbed a mountain would I have to reach?
Do I even dare to speak, to dream, believe?
Give me a voice so strong, I can question what I have seen
Hold on world 'cause you don't know what's coming
Hold on world 'cause I'm not jumping off
Hold onto this boy a little longer
Take another trip around the sun
Around the sun
Around the sun
Around the sun
Around the sun
Let my dreams set me free
Believe, believe
Now now now now now now
Now now now now now now
Now now now now now now

...
