

# Around the Sun

## 8mm

I want the sun to shine on me  
I want the truth to set me free  
I wish the followers would lead

With a voice so strong it could knock me to my knees  
Hold on world 'cause you don't know what's coming  
Hold on world 'cause I'm not jumping off

Hold onto this boy a little longer

Take another trip around the sun  
If I jumped into the ocean to believe  
If I climbed a mountain would I have to reach?  
Do I even dare to speak, to dream, believe?

Give me a voice so strong, I can question what I have seen  
Hold on world 'cause you don't know what's coming  
Hold on world 'cause I'm not jumping off

Hold onto this boy a little longer

Take another trip around the sun  
Around the sun  
Around the sun  
Around the sun

Around the sun  
Let my dreams set me free  
Believe, believe

Now now now now now  
Now now now now now  
Now now now now now

...
