

# The Abyss

## Mausoleia

The future is predestined  
The writing's on the wall  
Can you see the telltale signs?  
The turning point has come  
Here it comes  
Suicide bombs exploding  
As missiles crack the sky  
Earthquakes and tsunamis  
Signal the end of time  
In the here  
And the now  
Feel the fear  
It's all coming down  
The world is turning, turning inside out  
The world is burning, it's burning on somehow  
But it's broken... it's burning  
Goin' up in flames!  
Can we change the path we're on  
Somehow turn the tide  
Smother the all-consuming fire  
Before the world collides  
With the here  
And the now  
Feel the fear  
All coming down  
The world is turning, turning inside out  
The world is burning, it's burning on somehow  
The world is turning, turning inside out  
The world is burning, it's burning on somehow  
But it's broken... it's burning  
Goin' up in flames!  
Do you remember bluer skies  
Happy days and simpler times  
Seems not that long ago  
But so far away  
Will it ever be the same again?  
I don't think so 'Cause it's here  
And it's now  
Feel the fear  
All coming down  
The world is turning, turning inside out  
The world is burning, it's burning on somehow  
But it's broken... it's burning  
Goin' up in flames  
Up in flames
