

Closer

Ferras

[Verse 1]

Would you let me hold ya?
I been waiting too long for ya

It started as a crush

Now I want you closer
Oh, come into my space

I say it to your face

I want you at my place[Pre-Chorus]

Come closer

I be like oh I'm going, going, going in

And it begins[Chorus]

I just want you closer

Your body and your mind

I just need you closer

All day long, all night

And every day gets harder

When I keep walking by

I just want you closer

I want you by my side[Verse 2]

Would you let me inside?

Wanna know just what you're thinking

My love is something [?]

Not just cause I'm drinking

Oh you're looking like a dream

So I don't wanna sleep

Can we get between the sheets?[Pre-Chorus]

Come closer

I be like oh I'm going, going, going in

And it begins[Chorus]

I just want you closer

Your body and your mind

I just need you closer

All day long, all night

And every day gets harder

When I keep walking by

I just want you closer

I want you by my side[Refrain]

Cause I need, I need, I need, I need

Come closer

Come closer, closer, closer, closer, closer
Come into my arms
Let it be the one
Come closer, closer, closer, closer, closer
Come into my arms
Let it be the one[Bridge]
Hope you don't mind me coming on so strong
You just need to know where I'm coming from
If you never take a chance then the chance is gone
Then you're only gonna miss what you didn't done
No
Yeah-eah-eah
No, no
Yeah, yeah[Chorus]
I just want you closer
Your body and your mind
I just need you closer
All day long, all night
And every day gets harder
When I keep walking by
I just want you closer
I want you by my side[Refrain]
Cause I need, I need, I need, I need
Come closer
Come closer, closer, closer, closer, closer
Come into my arms
Let it be the one
Come closer, closer, closer, closer, closer
Come into my arms
Let it be the one
Come closer, closer, closer, closer, closer
Come into my arms
Let it be the one
Come closer, closer, closer, closer, closer
Come into my arms
Let it be the one
