

# The Shallow End

## Grant Lee Buffalo

Where in the world have I been  
I must have tripped on the way in  
Diving into the shallow end  
I must have gone and broke the skin Hold me close and let me know  
I'm not alone for once  
Hold me close and tell me that  
I never really was Why on the earth could I not see  
The cloud a hangin' over me?  
But I did a dance to make it rain  
And it just overflowed the drains, ooh Hold me close and let me know  
I'm not alone for once  
Hold me close and tell me that  
I never really was
