

# Nothingness

[Emil Bulls](#)

Well like a descendant, I drifted far, far and wide  
Isolation, separation, nowhere to hide  
Maybe there's somewhere I can go  
Where there's sunshine and the wind won't blow  
Nothingness, all I have to feel is my loneliness  
Nothing in the attic except an empty chest  
And nothing lasts forever  
Although there are many, I look for no one, no one but me  
I search for things that are taking me high and far out of reach  
But this is the place I call my home  
I live with the lies and the fear all alone  
Nothingness, all I have to feel is my loneliness  
Nothing in the attic except an empty chest  
  
And nothing lasts forever  
Nothingness, all I have to feel is my loneliness  
Nothing in the attic except an empty chest  
And nothing lasts forever  
Nothingness  
Loneliness  
Empty chest  
And nothing lasts forever  
Nothing lasts forever  
Nothing lasts forever  
Nothing lasts forever  
Nothing lasts forever
