The Lost Chord

Steve Vai

Maybe in a million years you can see them
They're something that you can't hear but you can feel them
Under who we think we are we are one with them
Look and seeWho do you think it is that is crying
When we are last in fear they are dying.
But in all the things they do they keep trying
To show us throughI have now grown tall in the ways I have been shown
Away, all gone, you are. I'm, Indivisible IMaybe in a million years you will see them
Maybe we will see them
They're something you can't fear by you'll teel them
Feel the way
Under who we think we are we are one of them
