# Cyberface

## Judas Priest

He lies in wait
For one mistake
Morphing on your screen
Those who dare
Or the unaware
Download him for a screamDon't access the sites
Or beware his megabyteNo virus scan
Detects the man
Or the deadly tasks he plans
Drooling lips
His circuits lit
He crouches for attackSpider like on the web
Alive and well
But you are dead
Iniquitous in every way
Now he's come out to playCyberface
Iron will
Programmed to corrupt and kill
Cyberface
No escape
He is interfaced to HellCyberface
Iron will
Programmed to corrupt and kill
Cyberface
No escape
He is interfaced to HellOnce he's summoned and installed
Cyberface
He'll infest your motherboard
CyberfaceNow he's got a grip
He will strip away your fleshAlive yet dead
A fiend obsessed
He'll crash your system downAnd once in place
He'll stimulate
Your life, it's worthless nowGod forsaken
Grotesque mind
An entity
That's come alive
Boots your screen
And suddenly

Approaching fast and meanCyberface
Iron will
Programmed to corrupt and kill
Cyberface
No escape
He is interfaced to Hell
