

# The Phantom Cowboy (Remastered)

Judee Sill

I have seen the phantom cowboy ride  
His trail of dust is in my dreams  
With an eagle on his shoulder through the clouds he glides  
And sprints across the spatial streams  
But the ledge is steep, and the light is dark, still I see him leap  
And he keeps on headin' for a star  
That's not very far, he's travelin' on a sliver filigreeI've been waitin' at the eastern gate  
I waved my hand to flag him down  
I always hope to catch him but he just can't wait  
He's nor allowed to reach the ground  
But his touch can heal, When the light is dark, desn't need a shield  
Cuz he keeps on headin' for a star  
That's not very far, he likes it all just because it's realTho' I'm sittin' in the grit and grime  
The spark of hope is in me strong  
I'm gonna try to get there in the nick of time  
And maybe I can ride along  
If I have no fear  
when the light is dark  
I can feel you near  
Tho' you keep on headin' for a star  
That's not very far, please don't forgit  
If your way is clear, I'll be waiting here
