

I Won't Let You Go

Snow Patrol

No one can ever follow
No one can ever know
Wind up the spinning top and watch it go, watch it go
Never gonna be easy, was it?
You didn't think it'd be so much fun
Smile comes despite the danger get some get some
There's something happening here
There's something here that I just can't explain
I know I'm where I belong
Deep down inside I am no longer lost! I won't let you go
(This is what you really want)
So don't let go of me
(This is what you asked for)
I wanted something more
(This is what you really want)
I wanted this right here
(This is what you asked for) No one can ever follow
No one can ever know
Wind up the spinning top and watch it go, watch it go
Never gonna be easy, was it?
You didn't think it'd be so much fun
Smile comes despite the danger get some get some
There's something happening here
There's something here that I just can't explain
I know I'm where I belong
Deep down inside I am no longer lost! I won't let you go
(This is what you really want)
So don't let go of me
(This is what you asked for)
I wanted something more
(This is what you really want)
I wanted this right here
(This is what you asked for) Keep laugh until it hurts
It hurts 'till we learn
Down the point of fear
But there's joy somehow in me!
You're not as strong as I am
You're not as strong as I am!
Oooh oh oh, this is what you really want
Oooh oh oh, this what you asked for

Oooh oh oh, this is what you really want
Oooh oh oh, this what you asked for I won't let you go
(This is what you really want)
So don't let go of me
(This is what you asked for)
I wanted something more
(This is what you really want)
I wanted this right here
(This is what you asked for) This is that 1, 2, 3, 4
Now come back to carry us
Now 1, 2, 3, 4 now now
This is that 1, 2, 3, 4
Now come back to carry us
Now 1, 2, 3, 4 now now
This is what you asked for
