Fascination

Default

Cut up and silenced
And I am your conscience
Afraid to give up yourself
You live in your own world
Keeping your distance
We all have a story to tell
Well, maybe it's time you give it to me
You got something inside
What you trying to hide
Let me in your isolation
You got something to show
Close your eyes and let go
Let me in your fascination
The reason you're faking
The roads that you've taken
You swore you'd never go down again
If there's no one to trust in
Then all is for nothing
Can you live with that till the end
Well, maybe it's time I give up on you
You got something inside
What you trying to hide
Let me in your isolation

You got something to show
Close your eyes and let go
Let me in your fascination
I
Have tried
So long
To make you feel like you have a home
But I
Want you to know
That you don't have to go through this alone
Open your soul
You need to let go
I only want to show you
What you've never known
You got something inside

What you trying to hide
Let me in your isolation
You got something to show
Close your eyes and let go
Let me in your fascination
You got something inside
What you trying to hide
Let me in your isolation
You got something to show
Close your eyes and let go
Let me in your fascination
