Thank You Very Much

Kaiser Chiefs

Didn't expect any of this

But it's really nice

Didn't want you to cause a fuss

But it feels aliveSo thank you very much

It's really nice to know

That you enjoyed the show

And I want you to know when to go'Cause this should be a thrill

But it feels like a drill

Now you must let me go

Let me goI just imagine that of you

And there's nothing, nothing I can't do

I just imagine that of you

And there's nothing, nothing I can't doI just imagine that of you

And there's nothing, nothing I can't do

I just imagine that of you

And there's nothing, nothing I can't doI remember what it was like

And it was really nice

Never thought I would experience this

From the other sideSo thank you very much

That's really nice to know

That you enjoyed the show

And I want you to know when to go'Cause this should be a thrill

But it feels like a drill

Now you must let me go

Let me goI just imagine that of you

And there's nothing, nothing I can't do

I just imagine that of you

And there's nothing, nothing I can't doI just imagine that of you

And there's nothing, nothing I can't do

I just imagine that of you

And there's nothing, nothing I can't do
