

Sweethome Under White Clouds

Virgin Prunes

Sweet home under white clouds
A picture on the wall
It says it all, it says it all
I had a dream long time ago, imaginary
Like water, I had no color,
Running free, eternal beauty
And heaven, it was on earth,
The promised land of milk and honey
And I see it now,
The pain it lasts and all is wasted
Sweethome, sweethome,
Under white, white clouds.
And we, we slept happily ever after
We, we slept happily ever after
Sweethome, sweethome
Under white, white clouds
Home is where the heart is
Home is where the heart is
And we, we slept happily ever after
We, we slept happily ever after
(Home is where the heart is)
Sweethome,
Under white, under white clouds.
(Home is where the heart is)
Sweethome,
Under white, under white clouds.
(Home is where the heart is)
Sweethome
Under white, under white clouds.
(Home is where the heart is)
