Follow Me

Gamma Ray

Will you follow me into the light
A fortress of wisdom, a star shining bright
A garden of heavenly sin
A kingdom of beauty to please you withinWhere do we go from here?
Leaving our memories behind
It's time to free your mindHey you
I'll make your dreams come true
I can take you anywhere
Just call on me and I'll be thereFollow me
And I will guarantee
Your life will never be the same
Now hear me callin', won't you follow meWill you follow me into the fight
You smile as you die when you're close to the light
Your dreams will be lost in the haze
Your innocence dying in so many waysWhere do we go from here?
Leaving our dreams far behind
To fight the final fightHey you
I'll make your dreams come true
I can take you anywhere
Just call me and I'll be thereFollow me
Satisfaction guaranteed
We'll be in perfect harmony
So follow me, follow meWhere do we go from here?
Reaching our destiny's end
And nothing will remainFollow me
To the land of make believe
Close your eyes I will be there
And I will take you anywhereSacrifice
At the gates of paradise
It's a world full of illusions
By the masters of confusion, follow meWill you still follow me?
Will you still follow?
