Fire Guided Light

Babylon Zoo

There's something in the sky
I think you're going to die
We're sitting on the edge
Of a coffee colored crowdLike strangers in the night
Dance from fire guided light
Hey, I think you're gonna die
Hey, I think we're gonna dieDon't give me crap
We're gonna change
We're gonna change
(We're gonna change)
Don't give me crap
We're gonna change
We're gonna changeThere's something in the sky
I think you're gonna die
We're sitting on the edge
Of a coffee colored crowdLike strangers in the night, I believe you
Dance with fire guided light, I believe you
Hey, I think we're gonna die, I believe you
Hey, I think you're gonna die, I believe youDon't give me crap
We're gonna change
We're gonna change
(We're gonna change)
Don't give me crap
We're gonna change
We're gonna changeThere's something in my eye
I think I am gonna die
Like strangers in the night, I believe you
Dance with fire guided light, I believe you
Hey, I think you're gonna die, I believe you
Hey, I think we're gonna die, I believe youDon't give me crap
We're gonna change
We're gonna change
(We're gonna change)Don't give me crap
We're gonna change
We're gonna change
(We're gonna change)Don't give me crap
We're gonna change
We're gonna change
Don't give me crap

We're gonna change
We're gonna change
