Live

Zug Izland

Clear out your mind
Look to your past
and see what you can find
So stole a frame
of the profit's perfect picture falls rain
Is this the life that we choose to live in?
Or is this the life that has been giving?
Now is the time to see what my life should be
What is mine
[Chorus]We live in Shangri La now
We live in, we live in
We live in Shangri La now
We live in, we live in
I've got, I've got
You've got, You've got
We've got, We've got
It's a timeless rage
for many people, praying to be saved
Truth is so strong
it needs lights to guide it so that it can carry on
I've seen blood on my hands, am I dead?
Or is this where it begins?
I feel the shame for my friend
Who put a bullet in his brain

[Chorus]We live in Shangri La now
We live in, we live in
We live in Shangri La now
We live in, we live in
I've got, I've got
You've got, You've got
We've got, We've got
I've got, you've got
We've got something to die for
I've got, you've got
We've got something to die for
I've got, you've got
We've got something to die for
I've got, you've got

We've got something to die for
[Chorus x2]We live in Shangri La now
We live in, we live in
We live in Shangri La now
We live in, we live in
