

Reason (Dave Darell Radio Edit)

Cascada

There's something in your eyes I know I can't resist
Something in the air I don't know why
You were hardly there when I was on my own
There's something about you that makes me cry Can't I believe?
That your heart still beats for me
Let me receive a sign across my destiny
And I wanna know Give me your reason for me to believe in
Can't you see it in my eyes?
And I need your reason for I'm so breathing
It's the time to say good bye 'Cause deep in my heart I know
There's a reason why I'm not living, why I'm not alone?
So give me your reason for me to believing
Give me your reason, give me your reason Something in your eyes still takes my breath away
Something's deep inside, please tell me why?
I don't know what I should do to break this spell
How can you make my life an alibi? Can't I believe?
That your heart still beats for me
Let me receive a sign that you're my destiny
And I wanna know Give me a reason for me to believe in
Can't you see it in my eyes?
That I need a reason for I'm still breathing
It's the time to say good bye 'Cause deep in my heart I know
There's a reason why I'm not living, why I'm not alone?
So give me your reason for me to believe in Give me your reason Give me a reason
