

I Hate Everything

Defiance

every fucking morning is the same bullshit
drag my ass out of bed and stagger off to work
working for shit another eight hours gone
my life is fucking pointless i'm getting nothing done
fucking worthless parasite do your own fucking work
i'm not going to be a slave for the rest of my life
fuck that fuck you i won't give in
i won't submit to your self destructive lifestyle
i would rather be miserable fo the rest of my life
than be a happy idiot in your happy little worldand so a third of my life is gone with nothing to show
just to get up and do it all again[Chorus:]
i hate everything i fucking hate it all
i hate everyone i fucking hate them allit's hard to live in a world when you fucking hate it all
everyone and every thing you see makes you fucking sick
right wing left wing sitting on a fence
stupid fucking people think your going to change the world
that's the thing that fucks the most i know for a fact
nothing is ever going to change it's going to stay the same
no matter what i do no matter what i say
it's all a fucking waste of time it's getting nothing done
i can yellscream and small all i want
but it doesn't fucking matter i'm playing a losing game
i live like a dog in a house full of shit
the best part is i get to pay for it
