## Not3s

I know you know,  
that you're safe by my side and that there's nobody else holdin' you  
You know it's true  
I said I know you know,  
feel the feeling inside when I look  
in your eyes and you know it's true  
That's why I've chosen you  
I said that's why I've chosen you It's only you I'm seeing  
It's only you I'm preeing  
You best believe me when I say there's no way you could be replaced  
'Cause you're too great lil' bubba  
Let's run away get your suitcase lil' bubba  
Find a place that they can't locate,  
yeah we stars we should try the space lil' bubba  
Land in a place where the martians live and they don't know our faces  
No one's flexin' the way that we flexin'  
No one's sexin' the way that we sexin'  
They can hate and throw shade but  
nothin' they say would ever change this  
No rearranging, I claim it, yeah I know you know,  
that you're safe by my side and that there's nobody else holdin' you  
You know it's true  
I said I know you know,  
feel the feeling inside when I look  
in your eyes and you know it's true  
That's why I've chosen you  
I said that's why I've chosen you  
My miss is natural  
Fight for you like I'm Manny Pacquiao  
Fly you all around the world  
Now your passport lookin' international  
I'm the Superman but you're my kryptonite  
Stay at my crib tonight  
The way she pulled her Vicky's down  
Got me stayin' all tee-tee, la-la Land in a place where the martians live and they don't know our faces  
No one's flexin' the way that we flexin'  
No one's sexin' the way that we sexin'  
They can hate and throw shade but  
nothin' they say would ever change this

No rearranging, I claim it, yeah I know you know,  
that you're safe by my side and that there's nobody else holdin' you

You know it's true

I said I know you know,  
feel the feeling inside when I look  
in your eyes and you know it's true

That's why I've chosen you

I said that's why I've chosen you Truth be told I ain't never tryna lie to you

No, no, no, no, no, no

I can never lie to you

No, no, no, no, no, no

Truth be told I ain't never tryna lie to you  
Nah, nah, nah, nah, nah, nah, nah, nah, nah, nah

I can never lie to you

No, no, no, no, no, no, no, no I know you know,  
that you're safe by my side  
and that there's nobody else holdin' you

You know it's true

I said I know you know,  
feel the feeling inside when I look  
in your eyes and you know it's true

That's why I've chosen you

I said that's why I've chosen you I know you know,  
that you're safe by my side and that there's nobody else holdin' you

You know it's true

I said I know you know,  
feel the feeling inside when I look  
in your eyes and you know it's true

That's why I've chosen you

I said that's why I've chosen you
