The Reasons

tuneage

It's just the way it goes and everybody does
And nobody said I can't
And this is how I feel and I just wanted to
I really thought I could
Because the reasons why
Why do we do the things we do?
Because I try to make you see
These things the way I do
It is what it is and that's too bad for you
I don't even care
Why can I? Why not? And I do what I want
And this is 'cause I said so
Because the reasons why
Why do we do the things we do?
Because I try to make you see
These things the way I do
Because the reasons why
Why do we do the things we do?
Because the reasons
The reasons, 'cause the reasons
Why, why, why, why
Because the reasons why
Why do we do the things we do?
Because I try to make you see
These things the way I do
Because the reasons why
Why do we do the things we do?
Because the reasons
Because the reasons, I try to reason
