

Mr. Opposite

Freya

Please excuse me while I try to understand
The huge difference between you and me
The strange way that we just don't get along
'cause we've tried hard enough now haven't we ...? You say I'm red - then that you're green
So we're each other - we're the same actually but ... You're always in conflict Mr. Opposite
You're always in conflict Mr. Opposite You say black - I go white
And I'm always the wrong now aren't I You say I'm red - then that you're green
So we're each other - we're the same actually but ... You're always in conflict Mr. Opposite
You're always in conflict Mr. Opposite
You're always in conflict Mr. Opposite
You're always in conflict Mr. Opposite
