Clap your hands rightLet him to my bed
Throbbin' in my head
Nothin' could be said
You wouldn't understandRipped him from my breast
My lover failed the test
Shed him from my skin
Too long he's livin' inClap your hands right
Clap your hands
Clap your hands right
Clap your handsClap your hands right
Clap your hands
Clap your hands rightI love bad behaviour
Addicted you can say
It's hidden in my nature
It's a fix I obeyBaby don't you sweat
I've got plans for you
I don't make idle threats
But I've got no respectAnd I feel so alone, yeah
Lover I feel so alone, ooh yeah
And I feel so alone, yeahInject me I'm your flavour
You know what's good for you
Nothin's gonna save you

When the poison drips throughLed him to my bed
Throbbin' in my head
Led him to my bed
Throbbin' in my headClap your hands right
Clap your hands
Clap your hands right
Clap your handsClap your hands right
Clap your hands
Clap your hands rightGo ahead, go ahead, go ahead, go ahead
Go ahead, go ahead, go ahead, go ahead
Go ahead
