

That's the Way I Feel About You

Dynasty

Oh Oh

That's the way I feel about you

That's the way I feel about you

What have you done to my heart?

No One ever made me feel this good inside

I knew you were special from the start

You let me close enough to know

Exactly where you draw the line

You had to be the one and only love in my life

Well that suits me just fine

That's the way I feel about you

Girl, don't you know,

I don't want nobody else but you

And won't rest 'til you're mine

That's the way I feel about you

Baby, I'm sold on your love

Your Love's like a wonder drug

It has ridden all the pain I felt, inside

But now baby I'm hooked on your love

And there's nothing I won't do

To get a fix of you

Only one way I could deal with my addiction this time,

Girl you must say you're mine

That's the way I feel about you

Ooh, can't you see,

That nobody else will do for me

Cause you're one of a kind

That's the way I feel about you

And only you

I know my heart won't last without your love

I'm not ashamed to show

(That's the way I feel about you)

I feel for love

I feel more just to let you know

That's the way I feel

You brought me joy
Since your love I discovered
(That's the way I feel about you)
We'll have a lasting love
Just give our hearts a chance

So Don't you know that I would sail the 7 seas for you and me
(That's the way I feel about you)
I would climb the highest mountain in the world for you girl
There's nothing I won't do to prove my love is true
(That's the way I feel about you)
Baby Just give me a chance to give my All.

Baby, That's the way I feel about you
I don't want nobody else but you
Baby, That's the way I feel about you
I can't do without your love
I'm not ashamed to show
(That's the way I feel about you)
I feel for love
I feel more just to let you know
That's the way I feel
