

# Linda

## Luis Segura

Every woman have a snapping point  
You don't want her to snap no  
Someone stop Linda  
She just left the crib with a beretta  
She's on her way to pop her fiance  
It's the word on the street  
He was sleeping with Renee  
Lord knows, please someone stop Linda  
He don't even know she's coming  
Like the FBI, she gon' knock down the door with no warrant  
Lord knows, what happened to the good time lovin'  
Lovin', lovin', lovin', lovin'  
My father used to tell me, son, listen  
There's a thin line between love and hate  
Once you cross that line, see there's no escape  
She love me, she love you not  
You don't wanna open up Pandora Box no, no  
She will see that you've been cheating  
When you said that you've been working  
All I'm saying is just watch your back  
'Cos tonight see I got a bad feeling Jack  
Linda's got a gat  
Someone stop Linda  
She just left the crib with a beretta  
She's on her way to pop her fiance  
It's the word on the street  
He was sleeping with Renee  
Lord knows, please someone stop Linda  
He don't even know she's coming  
Like the FBI, she gon' knock down the door with no warrant  
Lord knows, what happened to the good time lovin'  
Lovin', lovin', lovin', lovin'  
  
Listen to me now  
Every barrel got a Linda  
Trust me you don't want that drama  
When you laughing she's crying  
Mascara running down her face, now she's plotting  
Like method man, she gon' bring the pain

Like Cypress Hill you got a insane in the membrane  
All I'm saying is just watch your back  
'Cos tonight see I got a bad feeling Jack  
    Oh, my God  
        Someone stop Linda  
        She just left the crib with a beretta  
        She's on her way to pop her fiance  
            It's the word on the street  
            He was sleeping with Renee  
            Lord knows, please someone stop Linda  
            He don't even know she's coming  
Like the FBI, she gon' knock down the door with no warrant  
    Lord knows, what happened to the good time lovin'  
        Lovin', lovin', lovin', lovin'  
            Someone stop Linda  
            (Samson fell for Delilah)  
            Someone stop Linda  
            (Ahab fell for Jezebel)  
            Someone stop Linda  
            (King David fell for Bathsheba)  
            And coming in the mist  
        Linda wants to head up the baptist  
            Someone stop Linda  
        He don't even know she's coming
