

Summer O I

moe.

Cry away the dark night fade to day
the mornings come my way
I'm an ordinary man Slick words slipping through your mouth
and i try to hear you out
I'm just playing in the band Good luck calling me out
it's just a karma fallout
it's just a hole i fell in Long days summer o i
yeah I'm reeling this time
I guess I'm hauling it in Chorus:
Song we like will live forever
it's not design, it's not the band
right this time, wrong forever
can't decide, summer o i Imagine if we had pictures of the fall
we could laugh at them all
and fiddle our cares away Or if I had a crystal ball
my bank accounts so small
I wouldn't bet on LA Jet trash set on the sun
third satellite from
spinning me round Bright days summer o i
I guess I've done it this time
I'm an extraordinary man Chorus:
Song we like will live forever
it's not design, it's not the band
right this time, wrong forever
can't decide, summer o i Song we like will live forever
it's not design, it's not the band
right this time, wrong forever
can't decide, summer o i summer o i
