

# Daffy Duck

## Animal Collective

what i need is good advice  
cooked on plates around me  
rubber hands and silly friends  
they sit on my world/wand  
someone's soul a sweet sea snow / someone sow a sweet sea soup  
i could swim in proudly  
and we might swim like laughing ducks  
in your pink love/glove alone  
there we go changing again / here we come changing them  
pink love again / here we come again  
My hands can make yours's warm again  
if not absorb in blanket

are you in need of teething?  
and they were on your neck  
And if I had volcano boots  
for swimming in the volcano  
do you know the origins of laughing ducks?  
oh what's the matter with those birds?  
there you go changing again / here you come changing them  
There you go again / here we come again  
what you needs a happy farm  
with happy goats and sheep  
what I need's a happy arm  
to swing ya' round like father
