Caught You

Case

We did so many things wrong
So now I think it's too late for us
But wait, listen for a minute, babySpent last night wonderin' where you've been
Jumped in my ride just searchin' for somethin'
As I stopped at the lightThrough all the noise I could hear your voice
So I looked in my rear view and I saw you
Oh, and it hurt so badWhat can I do, girl I saw you
What can you say, girl I caught you
Just can't explain the way he kissed you
It's gonna hurt I'm gonna miss youI don't know what I'm gonna do, yeah
It's the very next night, your all alone
Waiting so, I looked in your eyes
Nothing there but despairI asked where you were last night and don't lie
You said you spent the evening at your girlfriends
Why you wanna pretendWhat can I do, girl I saw you
What can you say, girl I caught you
Just can't explain the way he kissed you
It's gonna hurt I'm gonna miss youBaby, I can't lie
I'm not the average guy
And I'm not gonna sit around
I won't even ask you whyThe choice you made was yours to make
So thanks for all the love you gave
But baby, now it's time to say goodbye
Goodbye, thank you bye, bye, bye, babyWhat can I do, girl I saw you
What can you say, girl I caught you
Just can't explain the way he kissed you
It's gonna hurt I'm gonna miss youWhat can I do, girl I saw you
What can you say, girl I caught you
Just can't explain the way he kissed you
