There's Always Tomorrow

Johnny Marks

Sometimes I feel so blue inside
So when I'm lonely, I drive to St. Tropez
I leave the world behind, that's gray
Into sunshine, I know I'll be okay, I say
Life is short
Too beautiful for you to worry
Don't give up, when love is unkind
There's always tomorrow
Don't let them bring you down that way
The view is golden, believe the old cliche?
I need a little time to play, so kiss the moonlight
The night is young at heart, they say
[Incomprehensible]Too beautiful for you to worry
[Incomprehensible] when love is unkind
There's always tomorrow
Just let your imagination take a chance
It'll get you far
Step by step, the road is long
But at the end you can touch a star
I don't care where I came from
It's where I'm going that gets me through
It's all I need to get me through
There's always tomorrow
[Inaudible]There's always tomorrow
[Inaudible]Life is short
Too beautiful for you to worry
Don't give up, when love is unkind
There's always tomorrow
