

All the Way to Kingdom Come (Demo Version)

[Rich Mullins](#)

We didn't know
What love was 'til He came
And He gave love a face
And He gave love a name
And He gave love away
Like the sky gives the rain and the sun
We were looking for heroes
He came looking for the lost
We were searching for glory
And He showed us a cross
Now we know what love is
'Cause He loves us
The way to kingdom come
All the way
The way to kingdom come
Love is a miracle
It's a miracle if you can find it
Miracles are hard to come by
These days, these days
But the sweet Lord Jesus
He's a miracle man
He's got holes in His feet
In His side, in His hands
And if you ask for love
Love pours through them
Like a ray of light, like a raging blaze
We didn't know
What love was 'til He came
And He gave love a face
And He gave love a name
And He gave love away
Like the sky gives the rain and the sun
We were looking for heroes
He came looking for the lost
We're searching for glory
And He showed us a cross
Now we know what love is
'Cause He loves us
The way to kingdom come
All the way
The way to kingdom come
Life is a mystery
It's a mystery, that we're all live in
This world is so fragile
And we're so frail, so frail
Yeah, with the sweet Lord Jesus
His mysterious heart
Keeps the life-blood pumping

At the center of it all
If He let go of us, we'd all blow apart
But He holds on tight, His love don't fail
We didn't know what love was
We didn't know
What love was 'til He came
And He gave love a face
And He gave love a name
And He gave love away
Like the sky gives the rain and the sun
We were looking for heroes
He came looking for the lost
We were searching for glory
And He showed us a cross
Now we know what love is
'Cause He loves us
The way to kingdom come
All the way
The way to kingdom come
All the way, all the way
The way to kingdom come
