

Hey Brittany (acoustic)

Forever the Sickest Kids

Hey Brittany, why are you messing with me?
Is your boy in your mind?
Is your boy in the car
Or are you alone? So why does everything I say
Just make you upset
And I'm not here to bring you down
Lift you up, lift you up So yeah, yeah, yeah
Go ahead and lower it down, lower it down
Just a little bit, just a little bit
Lower it down So where do we go
(Where do we go?)
When you just have to fight to be alone?
(You cannot know, you will not know) So where do we go?
(Where do we go?)
When you just have to fight to be alone?
(You cannot know, you will not know) Hey Brittany, where is your engagement ring?
Did it mean anything?
Does the boy with the ring know
You bounce, bounce, bounce around? So how am I supposed to act
When you're around him?
When everything he says brings you down
Brings you down, brings you down So yeah, yeah, yeah
Go ahead and lower it down, lower it down
Just a little bit, just a little bit
Lower it down So where do we go
(Where do we go?)
When you just have to fight to be alone?
(You cannot know, you will not know) So where do we go
(Where do we go?)
When you just have to fight to be alone?
(You cannot know, you will not know) So where do we go
When everybody starts to bounce, bounce, bounce around?
Where do we go
When everybody starts to bounce, bounce, bounce around? So, yeah, yeah, yeah
Go ahead and lower it down, lower it down
Just a little bit, just a little bit So where do we go
(Where do we go?)
When you just have to fight to be alone?
(You cannot know, you will not know) So where do we go

(Where do we go?)
When you just have to fight to be alone?
