Love Vibration

Joe Simon

Step out into the sun
Step out into the world and love someone
Save yourself from hate
Save yourself from hate and all the hassleAnd you people all know what I'm talkin' about
Yeah, you people all know what he's talkin' about
And you people all know what I'm talkin' about
Yeah, you people all know what he's talkin' aboutSpread the love vibration
Spread the love vibrationNow everybody's scared
Scared of being lonely and abandoned
If you find someone who cares
If you find someone to love and understand youThen you people all know what I'm talkin' about
Yeah, you people all know what he's talkin' about
Yeah, you people all know what I'm talkin' about
Yeah, you people all know what he's talkin' aboutSpread the love vibration
Spread the love vibrationYeah, you people all know what I'm talkin' about
Yeah, you people all know what he's talkin' about
Yeah, you people all know what I'm talkin' about
Yeah, you people all know what he's talkin' about
If you people all know what I'm talkin' aboutSpread the love vibration
Spread the love vibration
Spread the love vibration
Spread the love vibration
