

# Cows Around

## Corb Lund

Cows Around: Corb Lund-Cabin Fever

Well everything is better with some cows around

Livin in town sometimes brings me down

Let me bestow this western blessing share what I have found

May you always have cows around

What else you gonna spend that extra money on

What else is gonna get you up hours before dawn

What else is gonna keep toiling on and on and on

May you always have cows around

Cmon you know that you got too much time on your hands

Not merely enough complication in your plans

You need to invite all the frustration that you can

May you always have cows around

Everything is better with some cows around

Livin in town sometimes brings me down

Let me bestow this western blessing leave you saddle bound

May you always have cow around

What else can make the bishop swear like a sailor might?

What else can cause such tension between a man and his wife?

What else could ever bring all these enhancements to your life?

May you always have cows around

What else is gonna get out when ya dont close the gate

What elsell make ya prematurely show your age?

What elsell take a run at you in a fit of bovine rage?

May you always have cows around

Well everything is better with some cows around

Livin in town sometimes brings me down

And although this western blessing leaves you cattle bound

May you always have cows around What kinda cows Corb?

Well theres Hereford, Highland, Simmental, Welsh Black and Maine-Anjou, Chianina, Limousine, Shorthorn, Charolais, Watusi too, Texas Long Horn, Kuri, any Roan, Ankole, Galloway, Red Angus, Brahma, Brangus,

Jersey, Guernsey, Holstein, Hey!

Well ya mighta had to let em dig for oil and gas

Ya mighta had to turn the place to an exotic game ranch

Ya mighta had to do all things to raise the cash

So youd always have cows around

How else ya gonna lose it all like daddy did

What else will make sure you leave nothing for your kids?

Its too late now you know it is you might as well admit

That you'd a barely floatin, sentimental, masochisticness  
And that despite all the statistic and the advice that you get  
You will always have cows around  
Ya everything is better with some cows around  
Livin in t own sometimes brings me down  
Well you wont know what youre missing till ya hear that sound  
May you always have cows around  
May you always have cows around  
Mooo moo
