Harem

The REG Project

Shape of her face
Caught me again
Trapped in her beauty
And her's, and her's, and her's tooI'm walking the Dellstreet againMy harem follows me everywhere
We party all night long
My harem follows me everywhere
Sing the lover's songEyes of life
Caught me again
Let's meet in the next life
I'll try to find you
And you, and you tooI'm walking the Dellstreet againMy harem follows me everywhere
We party all night long
My harem follows me everywhere
Sing the lover's songMy harem follows me everywhere
We party all night long
My harem follows me everywhere
Sing the lover's song
I follow my harem to the grave
