

# I Want To Master Life And Death

## Drop Dead, Gorgeous

I would do for you what you did to me  
even keel  
but to you I'm just a mirror  
well sometimes mirrors shatter  
the shrapnel becomes deadly  
it surrounds you with no escape and you can't save her [X2] like a ghost  
you slept in my bed  
and I fell while you tore through my neck  
when I awoke you were already dead  
those eyes  
I'll never forget make your move  
take your time  
every pawn threatens your life  
go raise hell  
come up short  
no mercy is granted here  
best come clean  
kill you stride  
keep your head  
cleanse your life  
cause you can't save her [X2] like a ghost  
you slept in my bed  
and I fell while you tore through my neck  
when I awoke you were already dead  
those eyes  
I'll never forget [X3] "I don't care what you do to her  
you won't find her body  
I swear  
I swear  
You won't find her body  
in time the rain with every season  
will wash the bones down the river"  
I would do for you what you did to me  
even kill  
but to you I am just a mirror  
well sometimes mirrors shatter  
the shrapnel becomes deadly  
"I swear  
I swear

you find her body"  
---death is upon all of us  
it comes in the shape of an angel---
