

# SO BLUE

## 7-seven-

Dream the day  
Caught in the sway  
Miles gone inside  
    Into the air  
    I take a breath  
    No longer care  
    To be the death  
    Even time  
    We took a light  
Songs leaving alive  
    Into the air  
    I take a breath  
    No longer dare  
To be the death of you  
    Of you  
    So blue  
    So blue  
    With you  
And into the air

We take a chance  
Can no longer bare  
To miss the dance  
    With you  
    With you  
    So blue  
    So blue  
    With you  
    With you  
    So blue  
    So blue  
    With you  
    With you  
    So blue  
    So blue  
    With you  
    With you  
    So blue  
    So blue
