

Calico

Alien Ant Farm

So make it real
Just make it real That's not a reason to fire me
That ain't no real reason
It's funny things cheapen when we disagree
If things got any worse then cheap would turn free Chorus:
Calico cats and calico dreams
That ain't too real
Just make it real Feel all the seasons flood through you and me
And see what trouble she's in
But that's not a reason to fire me
That ain't no real reason Chorus 2:
Calico cats and calico dreams
That ain't too real
Just make it real
Collisions hurt and abrasions bleed
It's hard to deal when all you do is feel Campfires swell into monstrous things
That summer heat that's winter deep Bridge:
And all your wild winds
They couldn't stop me from flying Chorus 2 Just make it real
