

# Lotus Eaters (Luke Vibert's Plug Mix)

## Moloko

Spiky lady shiny queen don't you tell them what you've seen  
Plastic people silicon never let them in your home  
Don't become a middle man keep your mouth shut if you can  
Don't you tell them what you know they will go anyway the wind blows  
Be my best friend be my baby I'll be there for you maybe  
Don't get on the roller coaster ya burn your fingers on the toasters  
Just a fair weather friend gone when the summer end  
They will look into your eyes tell you pretty perfume lies  
Slinky slimy lotus eaters Jeepers Creepers get a load of those peepers  
Talking all that mumbo jumbo people pass in solo limbo  
See them slip see them slide but have you seen the nasty side  
With all the smiling and kissing listen to the hiss hiss hissing  
She slip she slide she don't know why she hide  
Dizzy little missy with a twinkle in her eye bye bye  
Finger lickin' good kill you if she could dig it when you're down send in the clown  
Don't let them poke don't let them peek their friendly chat is cheap  
You look so fine you look so hip you're styling makes me trip  
Take your place if they could these are the people in your neighborhood  
She slips she slides she don't know why she hide  
Poking peeking sneaking cheating sniffing sliding  
A running and hiding  
Creeping crawling feeling and mauling  
Fickle little tickles brains like pickles  
She slip she slides she don't know why she hide  
Dizzy little missy with a twinkle in her eye bye bye  
Finger lickin' good kill you if she could dig it when you're down send in the clown  
She slip she slid she don't know why she hide  
Dizzy little missy with a twinkle in her eye bye bye  
Finger lickin' good kill you if she could dig it when you're down send in the clown
