The 11th Hour

Apollo Brown

I search the world to find the girl
I need, I need
I know she's also searching out
For me, for me
I keep on going way past the 11th hour
I keep on going way past the 11th hour
To find you
I keep on going way past the 11th hour
I keep on going way past the 11th hour
To find you
I search the world to find the girl
I need, I need
I know she's also searching out
For me, for me

I keep on going way past the 11th hour
I keep on going way past the 11th hour
To find you
I keep on going way past the 11th hour
I keep on going way past the 11th hour
To find you
I will...
I keep on going way past the 11th hour
I keep on going way past the 11th hour
To find you
I keep on going way past the 11th hour
I keep on going way past the 11th hour
To find you
I will...
